

## *International cuisine regional*

At *magdas* LOKAL you can easily spend the whole day eating, enjoying every bite. Whether for breakfast, brunch, the lunch special, à la carte, or at events, the restaurant offers plenty plant-based options and attaches great importance to organically grown and regionally sourced ingredients (for more information regarding sustainability see the **climate smart** factsheet).

In the morning, the flavors of the world are served as a buffet. Whether Syrian semolina cake, chia seed pudding, classic scrambled eggs, pickled vegetables, or homemade spreads – the kitchen makes sure to constantly replenish hot and cold delicacies.

On weekdays you can enjoy the daily changing vegan or vegetarian lunch menu or the weekly fish or meat dish. The small but refined menu promises seasonal and regional ingredients as well as international delights — available at lunchtime from Monday to Saturday and in the evenings from Tuesday to Saturday. With a team with people from more than 20 countries, diversity is not just lip service, but becomes a true (culinary) joy.

The attentive service team takes care of a cozy atmosphere, delicious drinks, and a good mood. *magdas* LOKAL is a social business that provides an apprenticeship program, in which young people with a refugee background become cooks or restaurant specialists (for more information see the **social business** factsheet).
